# MEDIA RELEASE

28 October 2020

## UFAW INVITES NOMINATIONS FOR TWO PRESTIGIOUS ANIMAL WELFARE AWARDS

As part of its commitment to science in the service of animal welfare and encouraging the next generation of animal welfare scientists, the Universities Federation for Animal Welfare (UFAW) is seeking nominations for two of its prestigious awards to be made in 2021.

Animal welfare science plays a fundamental and important role in the advancement of our knowledge and understanding of animals' needs and how best to meet them. The UFAW Medal for Outstanding Contributions to Animal Welfare Science recognises the exceptional achievements of an individual scientist who has made a major contribution to the advancement of animal welfare. It is open to individuals whose research, teaching, service or advocacy has significantly benefited the welfare of animals. Nominated candidates may be based anywhere in the world. The winner of the award will receive a cheque for £1,000, a commemorative medal and framed award certificate.

Previous winners of the UFAW Medal include Professors Dan Weary of the University of British Columbia, Canada; Sandra Edwards, School of Agriculture, Food and Rural Development, at Newcastle University, UK; Paul Hemsworth of the University of Melbourne, Australia; Georgia Mason of the Department of Animal and Poultry Science, University of Guelph, Canada and Paul Flecknell, Professor of Laboratory Animal Science & Director of Comparative Biology Centre at Newcastle University, UK.

The Early Career Researcher of the Year (formerly known as the Young Animal Welfare Scientist of the Year) is a prize that recognises the achievements of a young scientist who has made significant contributions to improving the welfare of animals. This award is open to students anywhere in the world currently studying for a doctoral degree and to post-doctoral scientists who are within six years of completing their PhD work. The winner of this award will receive a cheque for £1,000 and a framed award certificate.

### **Note to editors:**

The Universities Federation for Animal Welfare (UFAW) is an internationally recognised, independent scientific and educational animal welfare charity. It works to improve knowledge and understanding of animals' needs in order to achieve high standards of welfare for farm, companion, research, captive wild animals and those with which we interact in the wild.

UFAW improves animal welfare worldwide through its programme of awards, grants and scholarships; by educational initiatives, especially at university and college level; by providing information in books, videos, reports and in its scientific journal *Animal Welfare*; by providing expert advice to governments and others, including for legislation and 'best practice' guidelines and codes; and by working with animal keepers, scientists, vets, lawyers and all those who care about animals.

This work relies on the support of members, subscribers and donors. [www.ufaw.org.uk](http://www.ufaw.org.uk)
