

1 **Figure 2 Scoring sheet**

2 **PHYSICAL**

Scoring Factor		Score	1	2	3	4	5	6	7	8	9	10
1	General condition (weight loss, condition score)											
2	Clinical assessment (eg cough, diarrhoea, ascites)											
3	Activity level, mobility											
4	Presence of injury											
5	Not eating/drinking											
Average score (average of scoring factors)												
Comments:												

3 **PSYCHOLOGICAL/BEHAVIOURAL**

Scoring factor		Score	1	2	3	4	5	6	7	8	9	10
1	Stereotypy, self harming, unusual self-grooming											
2	Response to catching event											
3	Hierarchy upset/dispute, aggression/bullying											
4	Alopecia score											
5	Use of enrichment											
6	Aversion to normal events eg staff interaction, cage cleaning etc											
Average score (average of scoring factors)												
Comments:												

4 **ENVIRONMENTAL**

Scoring Factor		Score	1	2	3	4	5	6	7	8	9	10
1	Housing											
2	Group size											
3	Provision of 3D enrichment											
4	Provision of manipulable enrichment											
5	Contingent event (Room move, building works etc)											

Average score (average of scoring factors)	
Comments:	

5 **PROCEDURAL (Experimental and/or clinical)**

Scoring Factor		Score	1	2	3	4	5	6	7	8	9	10
1	Restraint											
2	Sedation											
3	Effect of intervention											
4	Change in daily routine, withholding enrichment, food, restricted access to usual living area											
Average score (average of scoring factors)												
Comments:
